Education

Georgetown University — Washington, DC
- Master's in Data Science & Analytics, Artificial Intelligence Concentration — 2025-2027
  - **GPA: 4.00/4.00**
  - **Achievements**: DSAN Scholarship winner, The American Dream, Audited

Hobart and William Smith Colleges — Geneva, NY
- Bachelor of Science, Computer Science — 2021-2025
  - **GPA**: 3.91/4.0
  - **Minors**: Data Analytics, Entrepreneurial Studies
  - **Achievements**: Elizabeth & Ruth Young Peace Prize, MLK Jr. Leadership Award, HWS Spirit Award

Experience

Massive Data Institute — Washington, DC
Data Science Researcher — May 2026 – Present
- Designed and implemented a deepfake provenance-analysis prototype for TrueMedia (private beta), tracing 7 cases across 168 appearances on 10 platforms; automated coordination detection matched published DFRLab and Cyabra attributions
- Built a config-driven pipeline tracking attacks and AI-generated content in four 2026 Senate races, collecting 8,700+ posts across X, Reddit, TikTok, YouTube and Meta political ads with reach tiers and a human-verified AI-content review queue
- Analyzed 36,000+ user judgments and 1,100+ free-text responses for a PNAS-under-review study of AI vs. human content detection, building a 14-category coding framework that showed which user strategies predict accuracy

Yallah Medical — Remote, US
Product Marketing Intern — June 2025 – August 2025
- Informed the product roadmap through market and competitor analysis, identifying opportunities to differentiate digital health services
- Improved navigation and UX by restructuring website architecture in collaboration with designers and developers
- Grew user engagement and demonstrated product value through blog content and social media campaigns

Data Analytics Department – Hobart and William Smith Colleges — Geneva, NY
Research Assistant Lead — June 2024 – August 2024
- Designed foundational data systems enabling a three-year environmental analytics project, ensuring scalability and continuity
- Led a cross-functional team of 5 student researchers in deploying a citywide IoT sensor network, coordinating data collection, technical design, and analysis

Career Services – Hobart and William Smith Colleges — Geneva, NY
Data Science Intern — June 2023 – May 2024
- Designed an interactive dashboard to visualize enrollment data, enhancing accessibility for 200+ faculty members

HWS Summer Sandbox Accelerator — Geneva, NY
Co-Founder - Mobile Active Recovery Service — June 2022 – August 2022
- Amongst 15 winners selected from 200+ candidates to start a venture with the Startup Accelerator program
- Engaged in user and market research, pitch deck creation, and business development using lean startup methods
- Defined MVP requirements through 100+ customer interviews; prototyped and pitched the winning product concept

Leadership & Activities

HWS Computer Science and Data Analytics — Geneva, NY
Teaching Fellow — August 2024 – May 2025
- Led three intro programming courses for 60+ students, achieving a 90% completion rate through mentorship and collaborative learning

HWS Muslim Student Association — Geneva, NY
Club President — September 2021 – May 2025
- Grew an inactive club into a 50+ member community, securing faculty sponsorship and a $9K annual budget

Skills

- **Product & Strategy**: Product Management, Market Research, UX Principles, Agile/Lean Startup
- **Data & Analytics**: Python, R, SQL, Data Visualization (Tableau/Power BI), Statistical Modeling
- **Collaboration & Tools**: GitHub, Excel, Figma, Wix/WordPress, Microsoft Office Suite
